

OVER 40 YEARS OF EXCELLENCE IN MIDWIFERY

'Stuck' on Dystocia for Midwives

Lynn Arnold LM, CPM

This workshop is designed to help midwives and midwifery students to understand, recognize, and resolve shoulder dystocia in a 'Real Birth' midwifery practice. The knowledge gained in this workshop will give the participant the opportunity to review and practice the management of shoulder dystocia, better preparing them to confidently handle an emergency shoulder dystocia.

Discussion Topics:

Incidence • Risk Factors

Prevention • Signs & Symptoms

Resolving Shoulder Dystocia – Real or Environmental;

Mc Roberts, Rubin, Gaskin, Motion & Movement

Understanding Neonatal Injury

Maternal Trauma

Statistics & Outcomes

This workshop is taught by lecture, visual aids, sample client charts and fetal monitor strips for open review and discussion. It encourages the attendees to participate, comment and ask questions to enhance their learning. It is a must for all midwives and students who want learn, review and update their skills in understanding and resolving shoulder dystocia.

Lynn Arnold is a practicing midwife and longtime midwifery educator who has a unique teaching style that will make even the most complex topics simple and easy to understand!
