

“Can you hear me? I am talking to you from the bottom of my heart.”

Lynn Arnold LM, CPM

This workshop is designed for midwives and midwifery students to learn the importance of intrapartum fetal assessment. It focuses on listening to the fetus as it ‘talks’ to the midwife about its overall well-being through its fetal heart rate. Learn how to listen and respond to the baby’s needs during labor and delivery.

Discussion Topics:

Risk Factors • Contraction Effects on the Fetus

Types of Auscultation • Fetal Heart Rate Patterns

Standards of Practice for Assessment

Tips and Tricks for Abnormal Heart Rates

Transporting for Abnormal Heart Rate

Case Reviews • Fetal Monitor Strip Reviews

Charting of Fetal Heart Rates

This workshop is taught by lecture, visual aids, sample client charts and fetal monitor strips for open review and discussion. It encourages the attendees to participate, comment and ask questions to enhance their learning. It is a must for all midwives and students who want to improve their skills in assessing the fetus and improve the overall fetal morbidity and mortality rates in out of hospital birth.

Lynn Arnold is a practicing midwife and longtime midwifery educator who has a unique teaching style that will make even the most complex topics simple and easy to understand!
