

VBAC Risks & Realities for Midwives

Lynn Arnold, LM, CPM

This workshop is designed to help midwives, midwifery students and doulas to gain a clear understanding of the importance of VBAC assessment and the risks associated with the labor and delivery of a VBAC client. It introduces a newly designed 'VBAC Risk Assessment Score Chart' by Alyson Kuntz-Butler, LM, CPM for aiding in the screening process of VBAC clients. It looks at the realities of dealing with a VBAC client's need for patient, supportive care so she may achieve a safe, successful out of hospital vaginal birth.

Discussion Topics:

History of Cesarean Section

'Un-Necessarians' • 'Necessarians'

Uterine Rupture – Statistics, Signs & Symptoms

Political & Legal Issues • VBAC Risk Scoring Systems & Assessments

Informed Consent • Caring for the VBAC in Labor

Increasing VBAC Success

This workshop is taught by lecture, visual aids, sample client assessment risk scores, and case reviews. It encourages the attendees to participate, comment and ask questions to enhance their learning. It is a must for all midwives, students and doulas who want improve their knowledge and skills in assessing the VBAC client.

Lynn Arnold is a practicing midwife and longtime midwifery educator who has a unique teaching style that will make even the most complex topics simple and easy to understand!
