

OVER 40 YEARS OF EXCELLENCE IN MIDWIFERY

Newborn Examination for Midwives

From Apgars to Foot Prints

Lynn Arnold LM, CPM

This workshop is designed for midwives and midwifery students as first line primary providers of the newborn care to learn the importance of the initial examination. It focuses on recognizing normal newborn and common variations seen in real midwifery practice. It breaks the exam process into quick noninvasive understandable assessments, discusses new testing guidelines for hearing & critical cardiac heart defects. Includes forms for documentation, referral and 'pediatric introduction'.

Discussion Topics:

Clinical History
Informed Consents
Setup & Supplies
Examination Techniques
Standard Examination Practices
Review of Recommended Testing
Tips and Tricks for Handling the Newborn while Obtaining Necessary Tests
Forms & Charting the Newborn Examination

This workshop is taught by lecture, visual aids, demonstration and practice on models, for open review and discussion. It encourages the attendees to participate, comment and ask questions to enhance their learning. It is a must for all midwives and students who want to improve their skills in assessing the newborn.

Lynn Arnold is a practicing midwife and longtime midwifery educator who has a unique teaching style that will make even the most complex topics simple and easy to understand!
