

OVER 45 YEARS OF EXCELLENCE IN MIDWIFERY

# Basic Prenatal Ultrasound

## For a Real Midwifery Practice

Lynn Arnold LM, CPM

**T**his workshop has been designed as an introduction to performing prenatal ultrasound in a 'Real Midwifery' practice. It presents a clear and concise path for the attendees to learn the applications of limited basic prenatal ultrasound. The course **is not** for advanced clinical diagnostics which should only be performed by licensed advanced providers but places emphasis on practicing within personal limitations.

### Discussion Topics:

Risks & Benefits • Indications  
Types of Exams • Scanning Mode's  
Transducer Types & Frequencies  
Keyboard Function • Probe Orientation  
Basic 1<sup>st</sup> Trimester Evaluation Viability & CRL  
Basic 2<sup>nd</sup> & 3<sup>rd</sup> Trimester Fetal Presentation, Position, Biometry  
Annotation, Storing & Transferring of Images

### Hands on Demonstration & PRACTICE with Live Models

Very Limited Space Due to the Content of this Workshop!

The volunteer models (with informed consent) will be provided by the sponsor of this workshop.  
If you have an ultrasound probe/machine please advise & plan to bring it with you.

This workshop is taught by slide lecture, visual aids, models, open questions & answers.

Lynn Arnold is a practicing midwife specializing in 'special circumstance births' and longtime midwifery educator who has a unique teaching style that will make even the most complex topics simple and easy to understand!
